**Predictive Services Discussion** A ridge of high pressure over the western U.S. will continue to strengthen its grip. On the western periphery, a series of weak disturbances will move northward through California, Oregon and Washington to provide showers and thunderstorms, with isolated storms over the remainder of the west. Record breaking temperatures will continue over the Great Basin and Pacific Northwest, with very low humidity. Scattered showers and thunderstorms will also continue to move around the east side of the ridge through the Rocky Mountain region and southwest U.S. A pair of upper level troughs in the Great Lakes and northeast U.S. will kick off showers and thunderstorms from the upper Mid-West to New England. Moderating conditions are anticipated for Alaska today, with less lightning coverage, but locally breezy winds in the southern Interior.

## **POWERLINE SAFETY**

*Miscellaneous Fireline Hazards 1545*

Operating near or under power lines poses unique hazards, and the following precautions should be followed to reduce potential equipment damage or injury:

- If possible, the power company should deactivate lines in the fire area.
- Don't operate heavy equipment under power lines.
- Keep all aviation activity away from power lines. Inform air attack and/or other aviation resources of the location of the power lines.
- Don't drive with long antennas under power lines.
- Don't stand near power lines during retardant drops.
- Don't park under power lines. The magnetic field around energized power lines can induce an electrical charge in ungrounded vehicles or equipment. This charge can shock anyone who touches the vehicle.
- Don't apply straight stream to power lines.
- All personnel should be cautioned that smoke may become charged and conduct the electrical current. Deactivated transmission and distribution lines may continue to pose a hazard due to induction.
- If power lines fall on your vehicle, DON'T leave the vehicle until the power company arrives. If the vehicle is on fire or fire is near, jump clear, don't hang on, keep feet together, and bunny hop away.
